

Coding Compliance Specialist (HEDIS)

Hanover, MD

Summary

The Coding Compliance Specialist position uses coding expertise to ensure appropriate codes are set up by specialty and/or plan. Monitors annual code changes implemented by CMS and Ingenics, using these data sources to determine annual rates for JHHC plans and providers. Assists HEDIS Manager and Clinical staff with specific elements of the EMR Standard Supplemental Data Process and performs data abstraction and documentation from medical records as appropriate.

Responsibilities

- Assist the HEDIS Manager and Clinical Quality Management Nursing Staff with specific elements of the EMR Standard Supplemental Data Process
- Perform data abstraction and documentation from medical records as appropriate. This includes the annual project and prospective review process.
- This role is a critical support to HEDIS efforts to ensure that JHHC meets and exceeds benchmarks as prescribed by the National Committee for Quality Assurance (NCQA) and the Centers for Medicare and Medicaid (CMS). HEDIS is a critical function that comprises a large number of points needed for NCQA accreditation. HEDIS is also critical to the Maryland Department of Health Value Based Purchasing (VBP) measures as well as CMS Star ratings.

Qualifications

Education

- Requires an AA degree in Business, Health Care Administration or relation field, Bachelor's degree preferred. Professional experience in advanced medical record documentation and at least 10 years of progressive medical record coding and auditing experience. Coding Certification is *required*.

Experience

- Professional experience in interpreting medical record documentation and at least 5 years of progressive medical claims or related insurance experience with a minimum of 1 year coding and/or auditing experience.
