

Information Technology Cybersecurity Specialist

Anchorage, AK / Los Angeles, CA / Berkeley, CA / Menlo Park, CA

Summary

The Department of Energy is seeking motivated and highly-qualified candidates for exciting positions available in multiple locations throughout the United States.

The mission of the Energy Department is to ensure America's security and prosperity by addressing its energy, environmental and nuclear challenges through transformative science and technology solutions.

Responsibilities:

- Evaluate system security plans and procedures, and assist in managing and directing the operations and functions of the office support contractors, addressing IT out-of-compliance issues, preparing, implementing, monitoring, and updating the project plan
- Develop Plans of Actions and Milestones (POA&Ms) to correct findings of non-compliance
- Initiate, direct and participate in the full life cycle of cyber security appraisals and network penetration testing of geographically dispersed and operationally diverse agency facilities
- Develop and recommend new and/or revised inspection, evaluation, and penetration testing methodologies for cyber security appraisals
- Provide recommendations on implementation strategies and policy recommendations based on industry best practices and governing directives
- Assist the Division by conducting research, conducting investigations of cyber events to include those that potentially violate regulatory requirements
- Collaborate with senior leadership, departmental and contractor managers and staff in scheduling, planning, coordinating, and implementing the Independent Oversight Cyber Security Appraisal Program.

Qualifications

Education

- Education must be obtained from an accredited institution recognized by the U.S. Department of Education.

- Foreign education must be reviewed by an organization recognized by the U.S. Department of Education.

Experience

SPECIALIZED EXPERIENCE REQUIREMENTS

- Applicants must have IT-related experience demonstrating each of the four competencies listed below.
- Attention to Detail - Is thorough when performing work and conscientious about attending to detail.
- Customer Service - Works with clients and customers (that is, any individuals who use or receive the services or products that your work unit produces, including the general public, individuals who work in the agency, other agencies, or organizations outside the Government) to assess their needs, provide information or assistance, resolve their problems, or satisfy their expectations; knows about available products and services; is committed to providing quality products and services.
- Oral Communication - Expresses information (for example, ideas or facts) to individuals or groups effectively, taking into account the audience and nature of the information (for example, technical, sensitive, controversial); makes clear and convincing oral presentations; listens to others, attends to nonverbal cues, and responds appropriately.
- Problem Solving - Identifies problems; determines accuracy and relevance of information; uses sound judgment to generate and evaluate alternatives, and to make recommendations.
