The Naked Facts – about Math Basics

- This video is a review of the math basics – fractions. As an experienced auditor, you know the importance of possessing solid math skills needed to determine sample size, to extrapolate overpayments, and to calculate accuracy and error rates.

The Naked Facts – about Statistical Terms

- This short video reviews some of the statistical terms related to conducting audits. Statistics and Statistical Theory – Basic review of Terminology and Concepts.

The Naked Facts – about Statistical Graphs

- This short video covers patterns of data, unusual features, dot plots, bar charts and histograms, cumulative frequency plots, and the scatterplot. Information learned about math formulas and statistical terms are needed to understand the information in this video. It is vital that you view the previous 2 videos before attempting to participate in the presentation.

The Naked Facts – about Audits, Ethics and Standards

- Whether you are an internal or external auditor conducting secondary or tertiary reviews or internal investigations, there is a consistent theme related to ethics and standards of conduct which must be observed. It is important to recognize attributes you should possess as an expert in your field. Attributes of an Auditor – Integrity; Confidentiality; Competency; Objectivity; and Being Free of Bias and Conflict of Interest.
