JOB DESCRIPTION

To stay ahead of the threat, Special Agents apply their professional experience and unique skills to their work every day. This includes previous roles in medical fields such as nurses and therapists.

We need Special Agents who are logical thinkers, those with prior scientific work experience and knowledge to aid in investigations of healthcare (medical, dental and vision) fraud and insurance and government program abuse and evidence collection.

As an FBI Special Agent, you can expect continued specialized training once onboard and opportunities to work on some of the Bureau's most complex cases.

The scope and scale of our investigations provide unique challenges unlike anything you could work on in the private sector.

Your ultimate mission: to protect the American people and uphold the Constitution of the United States.
