

# Health Care Analyst, Performance Measurement

## National Committee for Quality Assurance (NCQA)

Full Time  
Washington, DC

### ABOUT NCQA

The National Committee for Quality Assurance is a private, 501(c)(3) not-for-profit organization dedicated to improving health care quality. We use measurement, transparency and accountability to highlight top performers and drive improvement. Most of our employees work on HEDIS and our Accreditation, Certification and Recognition programs.

Government and private sector clients hire us through contracts and grants to help them measure and improve quality. At NCQA, we succeed on the basis of our quality products and services and the ethical way we do business. NCQA's maintains a reputation for high ethical standards. NCQA's Code of Conduct documents our commitment to such ethical behavior.

### JOB DESCRIPTION

Major responsibilities: gathering and synthesizing information obtained from various sources, including literature and evidence reviews and consulting with methodological and content experts; performing and managing tasks in all phases of a project including research, data collection, data analysis and production of draft reports and proposals. The Health Care Analyst also communicates with internal and external customers.

### Requirements:

- Bachelor's degree + 2-3 years post-baccalaureate experience.
- Basic knowledge of health care systems and health care policy. Demonstrated ability to work successfully in a team environment.
- Excellent oral and written communication skills and ability to perform several tasks/projects simultaneously with an uncompromising level of attention to detail.
- Proficiency with Microsoft Word, Excel spreadsheet applications, and PowerPoint
