

Clinical Document Improvement Specialist | HIM Revenue Cycle

US Health Shands Hospital
Job Location: Gainesville, FL
Full Time, Days

JOB SUMMARY:

Responsible for facilitating improvement in inpatient clinical documentation through concurrent review of the medical record for accurate physician documentation of diagnoses based on clinical evidence present in the chart, application of official ICD-9-CM coding guidelines, and interaction with physicians and other clinicians. Identifies opportunities for improvement in clinical documentation and queries the physician for clarification to support more specific diagnoses. Collaborates with physicians and coders to obtain documentation that most accurately reflects patient's severity of illness and risk of mortality. Educates all members of the patient care team on an ongoing basis

QUALIFICATIONS:

Minimum Education and Experience Requirements:

- Graduate of an accredited school of nursing with current RN licensure in the state of Florida.
- Minimum of 5 years of recent clinical experience in an acute care hospital setting.
- Certified Clinical Documentation Specialist preferred.
- Utilization review or medical record coding experience preferred; or
- Minimum of 5 years of experience in medical record coding/reimbursement with Registered Health Information Administration (RHIA) with bachelor's degree in Health Information Management; or
- Registered Health Information Technician (RHIT) or Certified Coding Specialist (CCS) with associate's degree.

LICENSURE/CERTIFICATION/REGISTRATION:

- RHIA, RHIT, CCS, CCDS or RN.
