

Medical Coder Inpatient

UC Health

Job Location: Denver, CO

Full Time/Days

JOB SUMMARY:

This is a full-time, remote/work from home, hourly position on the UC Health Inpatient Coding team. Potential opportunity for eligible out-of-state applicants. Assigns ICD-10-CM and PCS codes using computer-assisted-coding tools, and applies appropriate coding classifications for assigned areas/record types.

RESPONSIBILITIES:

- Reviews account day after admission and assigns appropriate ICD-10 and PCS codes. Review accounts throughout the stay and updates coding as documentation is added.
- Collaborates with physicians, CDI, and Quality to ensure accurate and complete coding, and to capture any quality measures needed.
- Partner with Compliance and department committees to clarify any coding issues.
- Enhances coding knowledge and skills with continuing education activities and by reviewing pertinent literature.

QUALIFICATIONS:

- High School Diploma or GED
- Relevant Inpatient Coding experience
- Coding-related certification from AHIMA or AAPC

Preferred

- Certified Coding Specialist (CCS) certification
