

Healthcare and Benefits Manager

Deel

Job Location: Remote

Full Time/Days

RESPONSIBILITIES:

- Strategic projects
 - You will help define the strategy for Global Benefits at Deel
 - You will work on market sizing, revenues projections, and competition analysis to help position Deel's offering on the market and drive revenue growth
- Product Development
 - You will work with the Product team to design, develop, test, and launch new Benefit products on Deel's platform
- Operational excellence
 - You will work on end-to-end launches of new Benefits, from broker negotiations to operational handling
 - You will drive continuous improvement for operations to define scalability for Benefits globally

REQUIREMENTS:

- Have 3-5 years of work experience with Benefits in a management consulting or scale-up company
- Deep understanding of benefits in the USA
- Have a solid track record of achievement - e.g. earned positions of leadership including in extracurricular or competitive sports, you have worked in a top tier company/startup, have quickly assumed responsibilities, or have won competitive awards
- Can break complex problems into smaller, actionable solution steps
- Are curious by nature and interested in making an impact
- You love working with data
- Have excellent written and verbal communication in English
