

Security Risk Compliance Analyst

The University of Virginia

Job Location: Charlottesville, VA/Remote

Full Time/Days

JOB SUMMARY:

UVA Information Technology Services (ITS) is seeking an Information Security Risk Compliance Analyst to join the Information Security (InfoSec) Compliance team. Reporting to the Information Security Officer - Governance, Risk and Compliance, the Analyst will perform security and compliance reviews of IT solutions used to access UVA data. The Analyst will serve as a technical resource for UVA business units implementing or procuring solutions that touch sensitive data and/or IT resources across the University. The ideal candidate will be highly detail-oriented and self-driven, with a fundamental working technical knowledge of server and endpoint management, both on prem and in a cloud computing environment. The successful Analyst will be solutions-oriented and leverage interpersonal skills to build numerous professional relationships and develop an intimate knowledge of secure technical solutions that will support the business processes and missions of numerous UVA departments, schools, and UAOs.

MINIMUM REQUIREMENTS:

- 3 years of experience with management of endpoints and/or servers
- Relevant experience in a higher education environment
- Solutions-oriented with the ability to leverage interpersonal skills to build numerous professional relationships

EDUCATION/LICENSES/CERTIFICATIONS:

- High School Diploma
- Associate's Degree Preferred.

ADDITIONAL INFORMATION:

- This role will be fully remote.
- Salary \$75,000-90,000 a year
