Coding Consultant, IFP Product

UnitedHealthcare
Job Location: Minnetonka, MN/Remote
Full Time/Days

JOB SUMMARY:

Individual and Family Plans (IFP) is a growing business within UnitedHealthcare. The Coding Consultant for IFP Product provides medical coding expertise to support internal policy development, benefit definition and accurate benefit configuration. They research and interpret healthcare correct coding using regulatory requirements and guidance related to CMS and CPT/AMA, review other major payer policies, and use internal business rules and policies to prepare written documentation in support of benefit configuration. The Coding Consultant for IFP Product possesses an overall understanding of all coding principles, including facility and physician coding and dental coding.

MINIMUM REQUIREMENTS:

- 3+ years of medical coding experience in a health insurance product implementation, benefit/coverage policy development, benefit configuration, or claims role.
- Experience analyzing data and/or regulatory requirements, problem solving, and providing fact-based recommendations or make decisions based on analysis.
- Experience performing clinical coverage review of post-service (pre-or-post payment) of claims requiring interpretation of state and federal mandates; certificates of coverage, medical and reimbursement policies, coding requirements and consideration of relevant clinical information on claims.
- Experience multi-tasking, prioritizing, and managing time efficiently across multiple work partners.
- Proven knowledge of commercial medical insurance benefits.
- One year of post-high school education can be substituted/is equivalent to one year of experience.

EDUCATION/LICENSES/CERTIFICATIONS:

- Possess and maintain one or more of the following coding credentials: CPC, CCS-P, CCS, CPMA or equivalent.

ADDITIONAL INFORMATION:

- You'll enjoy the flexibility to work remotely * from anywhere within the U.S. as you take on some tough challenges.
- *All employees working remotely will be required to adhere to UnitedHealth Group's Telecommuter Policy
