

Physician Clinical Reviewer (CDI)

CorroHealth

Job Location: Remote

Full Time/Days

JOB SUMMARY:

Physician Clinical Reviewer will review charts to facilitate accurate representation of patient's true clinical picture in the codes assigned by the coders. The Physician Clinical Reviewer will ensure that all reviewed charts capture the true clinical picture in compliance with federal laws, ICD-10 and CPT coding guidelines, along with supporting medical necessity considering NCDs, LCDs, InterQual criteria and Milliman Care Guidelines (MCG) to prevent denials. The Physician Clinical Reviewer will also be responsible to place queries, when appropriate, following AHIMA guidelines and CorroHealth policies to get diagnosis/procedure clarification and validity as it pertains to code assignment, code sequencing, severity of illness (SOI), risk of mortality (ROM), Hierarchical Condition Category (HCC) capture, and case mix data, as well as timely, accurate and complete documentation of clinical information used for measuring and reporting physician and facility outcomes. Additionally, Physician Clinical Reviewer may also be required to audit clients' clinical documentation integrity (CDI) program to include query review, analysis of coding, and overall program accuracy.

MINIMUM REQUIREMENTS:

- Five or more years working in an acute care setting as a Clinical Documentation Specialist (CDS)
- Prior experience of working as a Clinical and Coding validation auditor is a requirement
- Prior experience of working in inpatient case management or utilization review is preferred but NOT a requirement

EDUCATION/LICENSES/CERTIFICATIONS:

- Graduate from an accredited medical school that is listed in the World Directory of Medical Schools at <https://search.wdoms.org/>
- Graduation from an ACGME-accredited US residency program is preferred but NOT a requirement
- Recognized CDI credential from ACDIS (CCDS) and/or AHIMA (CDIP)
- Recognized coding credential from AHIMA (CCS)
