

# Senior Coding Compliance Specialist, ACO

## Sound Physicians

Job Location: Remote

Full Time/Days

### JOB SUMMARY:

- Under the direction of the Chief Compliance & Privacy Officer and the Director of Compliance & Audit, the ACO Compliance Specialist will coordinate and support compliance functions and activities in support of enabling Sound Long-Term Care Management Accountable Care Organization (SLTCM-ACO) providers to comply with all applicable billing and privacy compliance regulations.
- The ACO Compliance Specialist is responsible for conducting retrospective compliance reviews of documentation supporting codes assigned by practitioners to ensure accuracy in billing and compliance with Federal, State, payer, and institutional requirements. The ACO Compliance Specialist serves as the compliance lead and works cooperatively with SLTCM-ACO leadership and clinical leadership at ACO sites. Through the review process, the ACO Compliance Specialist also identifies opportunities to improve coding practices and related business processes or issues needing further review, assessment, and follow-up. The ACO Compliance Specialist provides individual and group coding and documentation training and works collaboratively with the Compliance Department and ACO Leadership to develop coding and documentation training materials and establishment of training plans for the practitioners in partnership with SLTCM-ACO.
- The ACO Compliance Specialist contributes to compliance program development by maintaining data for program reports, participating in the development and/or delivery of educational and outreach materials, and maintaining program records. The ACO Compliance Specialist will maintain current knowledge of applicable laws and regulations and may contribute to the unit's risk assessments and risk mitigation strategies.
- The ACO Compliance Specialist functions as part of a unit team to accomplish unit goals and works cooperatively with other compliance staff and entity staff as needed to resolve shared issues and concerns. In addition, he or she may participate in committees, workgroups, or process improvement projects as assigned.

### MINIMUM REQUIREMENTS:

- Minimum of five years' experience with Nursing Facility, Telemedicine, and Post-Acute Care billing, coding operations, and compliance.

### EDUCATION/LICENSES/CERTIFICATIONS:

- Bachelor's degree in a health sciences discipline, business, or related field desired or equivalent experience.
- A current coding credential from AHIMA and/or AAPC.

### ADDITIONAL INFORMATION:

- May require periodic travel to Sound Physicians' locations
