

Chief Compliance, Ethics & Privacy Officer

MaxHealth

Job Location: Tampa, FL/Hybrid

Full Time/Days

JOB SUMMARY:

As a member of MaxHealth's senior management team, the CCEPO serves a critical role in enabling our success. They are responsible for the ongoing development and periodic assessment of MaxHealth's Compliance & Ethics (C&E) Program and management of the Privacy Program. The C&E and Privacy Programs must fulfill the expectations of key stakeholders, including patients, their families, regulators and enforcement agencies.

The CCEPO is expected to promote an appropriate "Tone at the Top" that is consistent with MaxHealth's culture and core values. This is a senior leadership role that requires seasoned, pragmatic, and risk-informed judgment, and productive collaboration across MaxHealth and the greater healthcare ecosystem.

MINIMUM REQUIREMENTS:

- Five to ten years of relevant professional experience in healthcare. Experience in medical practice management and/or a relevant federal or state agency is preferred.
- Highly preferred, Florida Law Knowledge
- Robust working knowledge of managed government healthcare program (i.e., Medicare and Medicaid) requirements and applicable laws and regulations, including those concerning healthcare fraud, waste, and abuse.
- Demonstrated ability to work effectively with key internal and external stakeholders. Prior experience working with management committees, boards, and governing bodies is preferred.

EDUCATION/LICENSES/CERTIFICATIONS:

- An undergraduate degree, preferably in law, business management, or a related field; preference for a Juris Doctor degree from an accredited law school, with a strong academic record and admission to a state bar. Clinical experience will also be considered.
- Preference for high-caliber healthcare compliance certification, such as Certified in Healthcare Compliance (CHC) Certificate from the Health Care Compliance Association (HCCA), along with a fundamental understanding of regulatory frameworks and coding practices.
- Preference for privacy certification such as Certified in Healthcare Privacy Compliance (CHPC) from HCCA or Certified in Healthcare Privacy and Security (CHPS) from the American Health Information Management Association (AHIMA); other AHIMA certifications (e.g., Registered Health Information Administrator (RHIA) or Registered Health Information Technician (RHIT)) will also be considered.
