Coder Physician

Omega Healthcare
Job Location: Remote
Full Time/Days

JOB SUMMARY:

Under limited supervision the Coder ER reviews medical records and performs coding on all diagnoses, procedures, DRG/APC and charge codes. The Coder ER uses the most accurate codes for reimbursement purposes, research, epidemiology, statistical analysis outcomes, financial and strategic planning, evaluation of quality of care, and communication to support the patient's treatment. The Coder ER will be charged with maintaining the confidentiality of patient records and procedures.

MINIMUM REQUIREMENTS:

- Minimum of two to four years of current production coding experience in acute care.
- 2 years EPIC experience required.
- Two years Profee experience required.
- Familiarity with ACEP guidelines.

EDUCATION/LICENSES/CERTIFICATIONS:

- Successful completion of an AAPC or AHIMA-approved Coding Certificate Program
- Must have the following certificates and/or licenses: CPC, COC, CIC, RHIA, RHIT, CCS, and/or CCS-P.

ADDITIONAL INFORMATION:

- This is a full-time position. Days and hours of work are generally Monday through Friday. This position occasionally requires long hours and weekend work.
- This job operates in a remote home office environment.
