

Senior Revenue Cycle Manager

CND Life Sciences

Job Location: Remote

Full Time/Days

JOB SUMMARY:

The Senior Revenue Cycle Manager (SRCM) is responsible for overseeing the end-to-end revenue cycle process, with an emphasis on patient account management, including registration, billing, and customer service. This role requires strong leadership, strategic insight, and a handsOn approach to process optimization. The SRCM will partner cross-functionally to ensure operational excellence, drive continuous improvement and safeguard revenue integrity.

MINIMUM REQUIREMENTS:

- 7+ years of progressive experience in Revenue Cycle Management, with demonstrated success in improving systems and outcomes.
- Minimum 3 years in a supervisory or management role.
- Proven revenue cycle experience in a clinical laboratory environment required.
- Experience in a startup or high-growth environments with the ability to design scalable systems.
- Proficiency with laboratory billing software (e.g., Telcor, Quadax, XiFin).
- Proven track record of leading teams, driving change and building a positive culture.
- Knowledge of accounting principles, billing practices, medical terminology, CPT, and ICD10 coding.
- Exceptional communication skills, written, verbal, and interpersonal, with the ability to engage effectively with both patients and staff.
- Highly level of proficiency in Excel and data analysis.

EDUCATION/LICENSES/CERTIFICATIONS:

- High school diploma or equivalent required.
- Additional coursework or advanced education preferred (i.e. bachelor's degree, coding or billing certification, Six Sigma).

ADDITIONAL INFORMATION:

- This position is remote with some travel to company headquarters located in Scottsdale, AZ or regional office in Atlanta, GA, as approved by the VP, Revenue Cycle Management.
