

# **Audit Specialist (Monitoring, Compliance, Quality and Program Integrity)**

**Neil Hoosier & Associates, Inc.**

Job Location: Remote

Full Time/Days

## **JOB SUMMARY:**

NHA is seeking an Audit Specialist to support Centers for Medicare & Medicaid Services' (CMS) initiative designed to tackle fraud, waste and abuse (FWA) in Medicare Fee-for-Service (FFS) by using advanced technologies. The Audit Specialist will play a key role in ensuring program integrity, compliance, monitoring and quality in support of a comprehensive, data-driven monitoring program designed to safeguard model integrity, ensure adherence to regulatory and technological standards, and reduce risk to CMS and its beneficiaries.

## **MINIMUM REQUIREMENTS:**

- 3-5 years of Fee-For-Service (FFS) CMS experience in healthcare compliance, auditing, or federal program integrity initiatives.
- Demonstrated experience conducting risk-based audits, compliance reviews, quality audits, and data analysis within federal healthcare programs or contractor environments.
- Proficiency with audit management systems, Excel, and data analytics tools (e.g., SAS, SQL, R, or Python) preferred.
- Familiarity with Medicare and Medicaid policies, CMS Innovation Center models, and prior authorization regulations (including CMS-0057-F), preferred.
- Experience working with provider screening systems (APS, PECOS, OnePI) and compliance databases (DNP, LEIE) preferred.
- Salesforce experience.
- Experience with MS Teams, Sharepoint, MS Suite.
- Experience using and applying Artificial Intelligence (AI) in the workplace.
- Strong analytical, writing, and organizational skills.
- Ability to synthesize complex regulatory information into actionable audit findings and reports.
- Commitment to integrity, accuracy, and confidentiality in all compliance activities.
- Excellent communication and stakeholder engagement skills to support collaborative compliance management.
- Versatility, flexibility, and willingness to work within constantly changing priorities.
- Strong interpersonal skills.

## **EDUCATION/LICENSES/CERTIFICATIONS:**

- Bachelor's degree in healthcare administration, public health, compliance, auditing, data analytics, or related field
