

Lead Medical Records Technician (ROI)

Department of Veterans Affairs Veterans Health Administration

Job Location: Aurora, CO

Full Time/Days

JOB SUMMARY:

This position is located in the Health Information Management (HIM) section at the VA Eastern Colorado Health Care System. The MRT (ROI) reviews and processes requests for patient protected health information (PHI). The MRT (ROI) also provides direct customer service to the Veteran (or third party), by providing copies of the Veteran's PHI, when a signed, written request is received, or upon the Veteran's valid authorization to a third party.

EXPERIENCE AND EDUCATION:

- **Experience:** One year of creditable experience that indicates knowledge of medical terminology and general understanding of health records. Six months of the required one year of creditable experience must have provided the knowledge, skills, and abilities (KSAs) needed to perform MRT (ROI) work.

OR,

- **Education:** An associate's degree from an accredited college or university recognized by the U.S. Department of Education with a major field of study in health information technology/health information management, or a related degree with a minimum of 12 semester hours in health information technology/health information management (e.g., courses in medical terminology, anatomy and physiology, legal aspects of health care, and introduction to health records).

OR,

- **Experience/Education Combination:** Equivalent combinations of creditable experience and education are qualifying towards meeting basic experience requirements. The following experience and educational/training substitutions are appropriate for combining education and creditable experience:
 - Six months of creditable experience that indicates knowledge of medical terminology, privacy and release of information, the health record, and one year above high school with a minimum of six semester hours of health information technology/health information management courses.
 - Six months of creditable experience that indicates knowledge of medical terminology, privacy and release of information, the health record, and successful completion of a course for medical technicians, hospital corpsmen, medical service specialists, or hospital training obtained in a training program given by the Armed Forces or the U.S. Maritime Service under close medical and professional supervision. The training program may be substituted on a month- 3 for-month basis for up to six months of experience provided the training program included courses in anatomy and physiology, and health record techniques and procedures.
