

Healthcare Analyst

Connecticut Children's Medical Center

Job Location: Hartford, CT/Hybrid

Full Time/Days

JOB SUMMARY:

The Healthcare Analyst reports to the Director of Operational Excellence and provides statistical and analytic support for environmental assessment, planning activities, continual improvement and performance measurement. This position identifies, extracts, organizes, analyzes, visualizes and interprets data from internal and external resources to provide information-driven answers, forecasts and explanations. This position also identifies and documents trends, correlations, anomalies and changes in data and is expected to teach basic statistics in our Organizational Excellence Programs.

MINIMUM REQUIREMENTS:

- Experience in analytics and projects.
- Advanced expertise in Microsoft Office suite, including Word, Excel, PowerPoint, and Outlook, collaboration tools and ability to learn Smartsheet.
- Organizational and divisional policies and procedures; general knowledge of services provided to patients/families at Connecticut Children's.
- Strategic and analytical thinker, with the ability to look into the details and interpret the impact of key industry drivers.
- Good problem solving and decision-making skills.
- Ability to multi-task in a fast-paced environment.
- Manage multiple priorities and make ongoing decisions.
- Proven ability to break down complex problems into manageable goals.
- Lean continual improvement methodology (**preferred**).

EDUCATION/LICENSES/CERTIFICATIONS:

- Bachelor's degree in health analytics, engineering, statistics, or related field.
- **Preferred:** Master's degree in health analytics, engineering, statistics, or related field.
