

Senior Auditor Quality – DRG

Cotiviti

Job Location: Remote

Full Time/Days

JOB SUMMARY:

The Sr. Auditor, Quality Assurance position is responsible for ensuring that the audited claims meet quality standards necessary to generate high quality recoverable claims for the benefit of Cotiviti and our clients. Quality assurance emphasizes compliance with established procedures, accuracy of claim identification and supportive documentation. Identifies and notifies management of observed quality and communicates opportunities for process improvements based on independent audit claims review. Displays professional skepticism that enhances the work performed in order to achieve success in position.

MINIMUM REQUIREMENTS:

- 3-5 years of healthcare auditing or related experience
- Ability to mentor staff and enhance performance as it relates to the quality and productivity of auditors
- Excellent verbal and written communication skills
- Ability to work well in an individual and team environment
- Computer proficiency in Microsoft office suite required (Excel, Outlook, PowerPoint, SharePoint, etc.)

EDUCATION/LICENSES/CERTIFICATIONS:

- Education (at least one of the following are required)
 - Associates or Bachelor's degree in Nursing (active / unrestricted license)
 - Associates or Bachelor's degree Health Information Management (RHIA or RHIT)
 - Equivalent experience of 5+ years' experience in claims auditing, quality assurance, or recovery auditing...ideally in a DRG / Clinical Validation Audit setting or a hospital environment
- Coding Certification (at least one of the following are required and are to be maintained as a condition of employment)
 - RHIA or RHIT
 - Inpatient Coding Credential - CCS or CIC preferred, or
 - Candidates who hold a CCDS or CPC will be given consideration but will need to obtain an inpatient coding certification within 1 year of their hire date with the company
