

Compliance and Integrity Manager

Stormont Vail Health

Job Location: Topeka, KS

Full Time/Days

JOB SUMMARY:

The Manager, Integrity and Compliance has responsibility for the daily direction, development, technical and operational leadership of programs within Stormont Vail Health's Compliance and Integrity program across the enterprise. The Manager will lead the organization's Integrity and Compliance Program including the design, development and implementation of initiatives, strategies and procedures to assure regulatory compliance, operational efficiency, cost effectiveness and reduction of risk. Additionally, the Manager will develop, implement and manage policies, processes, procedures and educational programs to drive overall compliance with applicable laws, regulations, rules and accreditation requirements, including but not limited to coding, billing and medical record documentation, code of conduct and ethics. This position will partner with subject matter experts and operational leadership to ensure a shared understanding of and consistent compliance with rules, regulations, policies and practices that apply to employees across the organization, as well as effective implementation of SVH's policies, procedures and strategies to strengthen and provide corporate compliance. The Manager assists the leaders of assigned areas with oversight of the organization's Program. The Manager is expected to function through an objective process of monitoring, reviewing, and evaluating compliance issues/concerns as well as developing and implementing the necessary procedures for preventing them. The Manager also indirectly assists and guides dozens of directors and managers in their roles in support of the Program. By serving as an independent and objective agent to these individuals, the Manager is able to monitor, review, evaluate, and resolve compliance questions and concerns and address applicable rules and regulations. The Manager regularly reports to the Stormont-Vail HealthCare, Inc. leaders as well as other system-wide councils, committees or governing bodies as necessary.

MINIMUM REQUIREMENTS:

- 3 years of healthcare experience as a compliance officer, manager or related position. Required
- 2 years Experience with incident or event investigation. Required
- Experience with audits/quality control in a compliance, coding and billing environment. Preferred
- Management experience specific to compliance programs, billing and coding auditing, HIPAA, False Claims Act, Stark laws, etc. Preferred

EDUCATION/LICENSES/CERTIFICATIONS:

- Bachelor's Degree in Business Administration, Business Law or related field. Required
- Driver's License - DMV Current Valid Driver's License and Clean MVR with 3-year baseline and annual MVR review. Required
