Charge Master Analyst - Revenue Integrity

University of California, Irvine
Job Location: Remote
Full Time/Days

JOB SUMMARY:

The incumbent is responsible for the management of the Charge Description Master for all inpatient and outpatient technical charges including Room & Board Care, Pharmacy, Durable Medical Equipment, SOS 22 ambulatory care practices and ancillary services. Additional functions include charge capture development, rate analysis and appropriate alignment of hospital charges to physician charges. Incumbent is the primary liaison in providing expertise for all institutional charge application and regulatory charge guidelines for the hospital. Works independently and collaboratively, as needed, with Clinical Care Partners, Revenue Cycle Associates and IT Business Analysts to make decision regarding the Chargemaster.

MINIMUM REQUIREMENTS:

- 3 years experience with CDM management
- 3 years experience in an academic or large healthcare system
- 3 years experience as a Certified Professional Coder (CPC)
- 3 years chargemaster management experience

PREFERRED QUALIFICATIONS:

- Skill to read and correctly interpret governmental and commercial payor regulations and develop and implement recommendations consistent with interpretations
- Knowledge of University and medical center organizations, policies, procedures and forms
- Epic PB Resolute certification
