Delegation Oversight Clinical Auditor

UCLA Health

Job Location: Los Angeles, CA

Full Time/Days

JOB SUMMARY:

As a Clinical Auditor for the UCLA Health Medicare Advantage Plan, you will independently assess whether delegated clinical decisions and services are appropriate for members and supported by the clinical record.

Reporting to the Associate Director of Delegated Oversight & Systems, you will serve as the clinical subject matter expert for the review of services performed by contracted Independent Physician Associations (IPAs) and other delegated entities. Your work will span utilization management, case management, population health management, disease management, behavioral health, transitions of care, and related quality activities.

MINIMUM REQUIREMENTS:

- 5 or more years of experience in nursing, including managed care, health plan, utilization management, behavioral health, or related operations
- 3 or more years of experience performing utilization management, care management, population health, clinical quality review, clinical audit, or delegated clinical oversight
- 3 or more years of experience conducting clinical record review, medical necessity review, denial review, audit testing, or validation of clinical decisions and documentation
- Knowledge of Medicare Advantage delegation oversight requirements, plan accountability for delegated services, and applicable CMS, DMHC, NCQA, and OIG compliance guidance
- Clinical knowledge of Utilization Management, Case Management, Population Health Management, Disease Management, Behavioral Health, and Transitions of Care
- Ability to distinguish administrative or process completion from clinical appropriateness and independently perform the clinical component of oversight reviews
- Ability to evaluate assessments, risk stratification, care plans, interventions, referrals, follow-up, transitions, and escalation against identified member needs and source evidence
- Knowledge of medical necessity review principles and ability to evaluate clinical rationale, documentation, criteria application, and timeliness in authorization and denial files
- Ability to plan and conduct pre-delegation, annual, and focused clinical audits using source records, policies, committee evidence, and delegated entity submissions
- Ability to identify clinical, compliance, and documentation deficiencies; synthesize findings; and recommend clear corrective actions and risk escalation
- Ability to validate corrective action effectiveness through follow-up testing, evidence review, performance monitoring and trend analysis
- Ability to organize regulatory and accreditation evidence and support CMS and accreditation audit readiness activities

EDUCATION/LICENSES/CERTIFICATIONS:

- A Bachelor's degree in Nursing
- An Active unrestricted California Registered Nurse (RN) license
